

JOIN 1ST.MAY DEMONSTRATION

The 1st. may is a great day for the oppressed, an exploited and racially discriminated people of the world. It is at the same time the victorious day for the working people. The democratic and progressive Indian people cannot but respond to the call of the working people in Norway to demonstrate against all reactions, against all undemocratic and discriminatory measures in the world.

To respond to this great call is to really support and strengthen the great cause of democracy and freedom not only in India, but anywhere in the world where the democracy freedom and national minorities are suppressed.

This is the reason why the progressive Indians in Norway last year also joined the Faglig 1.mai Front demonstration together with thousands of Norwegians and hundreds of other foreign workers, having fought courageously against all reactions.

This year also we call upon all democratic progressive Indian people to join Faglig 1.mai Front demonstration:

- * For Solidarity between Indian working people and the Indians in abroad.
- * For Solidarity between Indians and Norwegians.
- * For Solidarity between Indians and the people of other national minorities usually known as foreign workers.
- * For Solidarity between the Indians and the oppressed people of the world.
- * To fight against discrimination and suppression of national minorities.
- * To Support democracy and Freedom.

Committee for Democratic
Rights in India.
